- Legacy Responsive Web Design

WORK EXPERIENCE

Independent/Freelance

Front-end Web Developer

2025 – Present

Finly – Personal Finance Tracker (**HTML, CSS, JavaScript**)

- Developed a personal finance tracking web application from planning to deployment, enabling users to monitor income, expenses, and cash flow efficiently.
- Designed a fully responsive user interface using CSS Grid and Flexbox to ensure a seamless experience across desktop and mobile devices.
- Implemented dynamic transaction management and automated financial calculations using JavaScript.
- Applied clean code practices and optimized application performance for improved usability and maintainability.

Eventix – Event Ticketing Platform (**HTML, CSS, JavaScript**)

- Developed a web-based event ticketing platform that allows users to browse events and manage ticket bookings through an intuitive interface.
- Built interactive user interfaces using HTML, CSS, and JavaScript to deliver a responsive and engaging user experience.
- Implemented dynamic event management features and client-side data handling to improve usability and navigation.
- Structured application components to ensure scalability and maintainable code architecture.

Prime Property Agency

Next.js, TypeScript, Tailwind CSS, Supabase

- Developed a modern real estate platform using Next.js, TypeScript, Tailwind CSS, and Supabase.
- Built responsive property listing pages with advanced search and filtering functionality to enhance user experience.
- Integrated Supabase for database management, authentication, and real-time data handling.
- Implemented reusable components and type-safe development practices using TypeScript to improve scalability and maintainability.
- Optimized application performance, responsiveness, and SEO to increase visibility and accessibility across devices.

Portfolio Website

(HTML, CSS, JavaScript, Typescript)

- Designed and developed a professional portfolio website to showcase technical projects, skills, and achievements.
- Implemented custom interactive animations to improve user engagement and overall browsing experience.
- Applied SEO best practices and performance optimizations to enhance search engine visibility and page load speed.
- Managed the complete development lifecycle, including coding, testing, deployment, and maintenance using GitHub Pages.
